

Folded Ornament Card

Card size: 107mm wide x 139mm high (4.21in x 5.47in)
Ornament size: 50mm wide 50mm high (1.97in x 1.97in)

Customisable area:

85mm wide x 25mm high
(3.35in / 0.98in)

This allows for a nice wide border around the engraving to not over fill the area.

Files for engraving need to be:

- saved as .ai or pdf,
- in black and white,
- with any layers removed
- most importantly any text converted to outlines

Making the most of engraving:

Space letters out

Images/Logos should be simple, clear with spaces between the parts.

Insert your image/logo into the yellow area above and print out on A4 paper to give a good idea of what it will look like, remember engraving is not as clear as a printer so you may lose finer details.

For Example:

The top image to the left the gaps around the numbers is very tight, so these lines were not visible on engraving

The second image has a clear gap around the numbers allowing a nice clear crisp engraving where these lines don't disappear on engraving.

Please note: The size of image/logo may be adjusted by us to best fit the ornament when creating the sample. We will do a sample and send you a photo for you to check before production
